

INNOVATIVE COATING SOLUTIONS, INC

Solid Waste Intermodal Containers

*Innovative Coating Solutions,
Inc.*

*We make your equipment
work better and last longer*

ICS liners are designed to thrive in the rigorous environment of the solid waste industry. These boxes incorporate our **INDUSTRIAL** polyurethane linings aimed at improving performance and decreasing expensive maintenance costs associated with rail-haul containers and ash boxes. From the patent-pending door seal system to the stainless steel pins and dual hinge system, these containers are custom designed for rail/truck-hauled solid waste applications.

Some of our happy customers include LRI, Allied Waste and Tidewater Barge and Weyerhaeuser Corporation.

Don't expect a pick-up liner to survive here because they are not designed to meet these rigors. **ICS Linings are intended for industrial applications!**
