

INTERSTATE WOOD PRODUCTS KELSO,
WASHINGTON

HIGH RELEASE ,LOW COEFFICIENT OF FRICTION
,LIFELAST LINER

ICS Liners save you money

Are your trucks spending more time on the tippers just trying to get the load out? Are your drivers bringing part of their load back that they were supposed to dump? Our HIGH RELEASE liners are so slippery that tipper operators are asking the drivers to leave the doors closed longer so the pit doesn't fill up all at once! Maybe they should coat the pit walls! Tipper angles don't need to be as steep to completely empty the truck either. That makes for less wear and tear on everyones equipment. Less wear and tear on equipment **saves you money every day!** Your truck won't empty? Does the load freeze up in the winter weather? It doesn't have to if we line it with LifeLast SS. Cross load contamination a problem? Our liners will take care of that. Drivers spending too much time digging out loads in the winter because of freezing weather? Our liner will take care of that! Need a food grade liner for those special hauls? Our liners will take care of that too!

Let Innovative Coating Solutions help you solve your hauling problems today!

No more sticking or freezing

Don't take our word for it. Ask Ben, shop foreman for Interstate wood products. Drivers for Interstate Wood Products in Kelso, Washington are giving rave reviews for the LifeLast lined trailers they are using. They are spending more time hauling and less time tipping or digging which is not only great for the drivers, but better for the company owners! **More loads per day per truck means more profit.** for Interstate Wood Products. Is your company earning more profit with Lifelast lined trucks?

Puget Sound now testing our liner and LOVING IT!! After we coated their worst truck to dump because loads constantly froze solid before being tipped, it became their most popular truck with it's driver. NO MORE DIGGING OUT LOADS!! NO MORE FREEZING AND STICKING. LOADS EMPTY CLEANLY AND AT A LOWER STAGE ON THE TIPPER!!

APPLICATION UPDATE!!! 3/16/01

Testing with Puget Sound Kettle Falls Washington, Bulk Systems Alberta Canada, and Interstate Wood Products Kelso Washington ARE EXTREMELY SUCCESSFUL!!! NO MORE FREEZING LOADS HANGING UP IN THEIR TRAILERS, IN EITHER WOOD OR ALUMINUM FLOORS!!
